Herborn, in May 2018

Dear Business Partners,

we would like to inform you today, that our company founders - Mr. Michael Riedel and Mr. Ramon Krick - have sold their previously held majority shares to our shareholder the ZK Holding Ziehstein-Kämpfer GmbH & Co.KG. They are following an earlier agreement, to continue and to secure company growth and capital requirements for future investments.

The new sole managing director and CEO is Mr. Hans-Peter Kämpfer, who is also the CEO of the Wallram Group. See www.wallram.de

Both, Mr. Michael Riedel and Mr. Ramon Krick, will continue to cooperate and working as employees. Mr. Riedel is responsible for sales and production, while Mr. Krick will continue his experience in tool manufacturing.

As of 01. June 2018 the companies accounting will be integrated into the group accounting system of our Holding Company, which is located at the same address. See www.zk.de
Since the relocation of our production in 2010 to the premises of our Holding Company, we have grown steadily in the field of machines and equipment for producing Tools and Dies, as well as of tool production and engineered parts made in carbide and synthetic diamond for the wire and cable industry worldwide.

We want to continue this trend.

We would like to sincerely thank our customers and suppliers for the trust you have placed in us.

Best regards
RK-Umformtechnik GmbH & Co. KG
General Manager and CEO
Hans-Peter Kämpfer
